Many thanks to the Park County Land and Water Trust Fund and the Park County Commissioners for their tremendous support for recent work done to improve water quality and wildlife habitat on U.S. Forest Service lands in the Fairplay area.

Wild Connections, Mosquito Range Heritage Initiative and Wildland Restoration Volunteers partnered with USFS South Park Ranger District recently to restore disturbed lands, improve public access and protect water quality in North Tarryall Creek and Beaver Creek.

This work would not have been possible without the LWTF's strong financial support and commitment to protecting the waters of South Park.

Many thanks, too, to over 100 volunteers who gave their time and hard work giving back to the public lands that make Park County so special.
